# TO THE NURSERY TRADE

In presenting you with our regular Spring wholesale trade list for this season we wish to thank our customers and friends for the liberal patronage given us in the past and we hope to have the pleasure of serving you more in the future.

In growing the stock listed herein we have tried to produce a quality of stock that will give entire satisfaction. In establishing the prices we have based them on the advantage that quantity production affords.

Our nursery being located here in the foot-hills of the Cumberland Mountains, the climate is ideal for the production of hardy plants. The growing seasons are ideal for proper development and the winters are sufficient to insure hardy plants. We usually have heavy frosts in early October. Real winter usually sets in about December 1st and with it comes snow, ice and zero weather. Do not be misled into the idea that stock grown here is not hardy. With such weather how could it be otherwise? And each year for more than fifty has proven that it is hardy by our many satisfied customers as far West as Utah, North as far as Minnesota, and East as far as Massachusetts. We have regular customers in 45 out of the 48 states, who are well pleased with our stock and service.

Our storage and facilities are sufficient to properly handle and care for stock during such weather. We own and operate several hundred acres. Our stock is not "jammed up" in the fields, but is in rows properly spaced and cultivated thoroughly and frequently. Even our lining out stock is grown in open fields and should not be classed with stock grown in beds or without room to develop. We do not sacrifice quality in order to reduce our investment. This is our 51st year in the production and distribution of HARDY ORNAMENTAL PLANTS.

To Our Many Friends and Customers:

By presenting you with this our 51st spring trade list we are making a bid for your business on the basis of good nursery stock and 51 years continued service. We hope this service has been satisfactory to you and invite you to continue your very liberal patronage, giving us a good percent of your business and promise the most efficient service possible during the coming season.

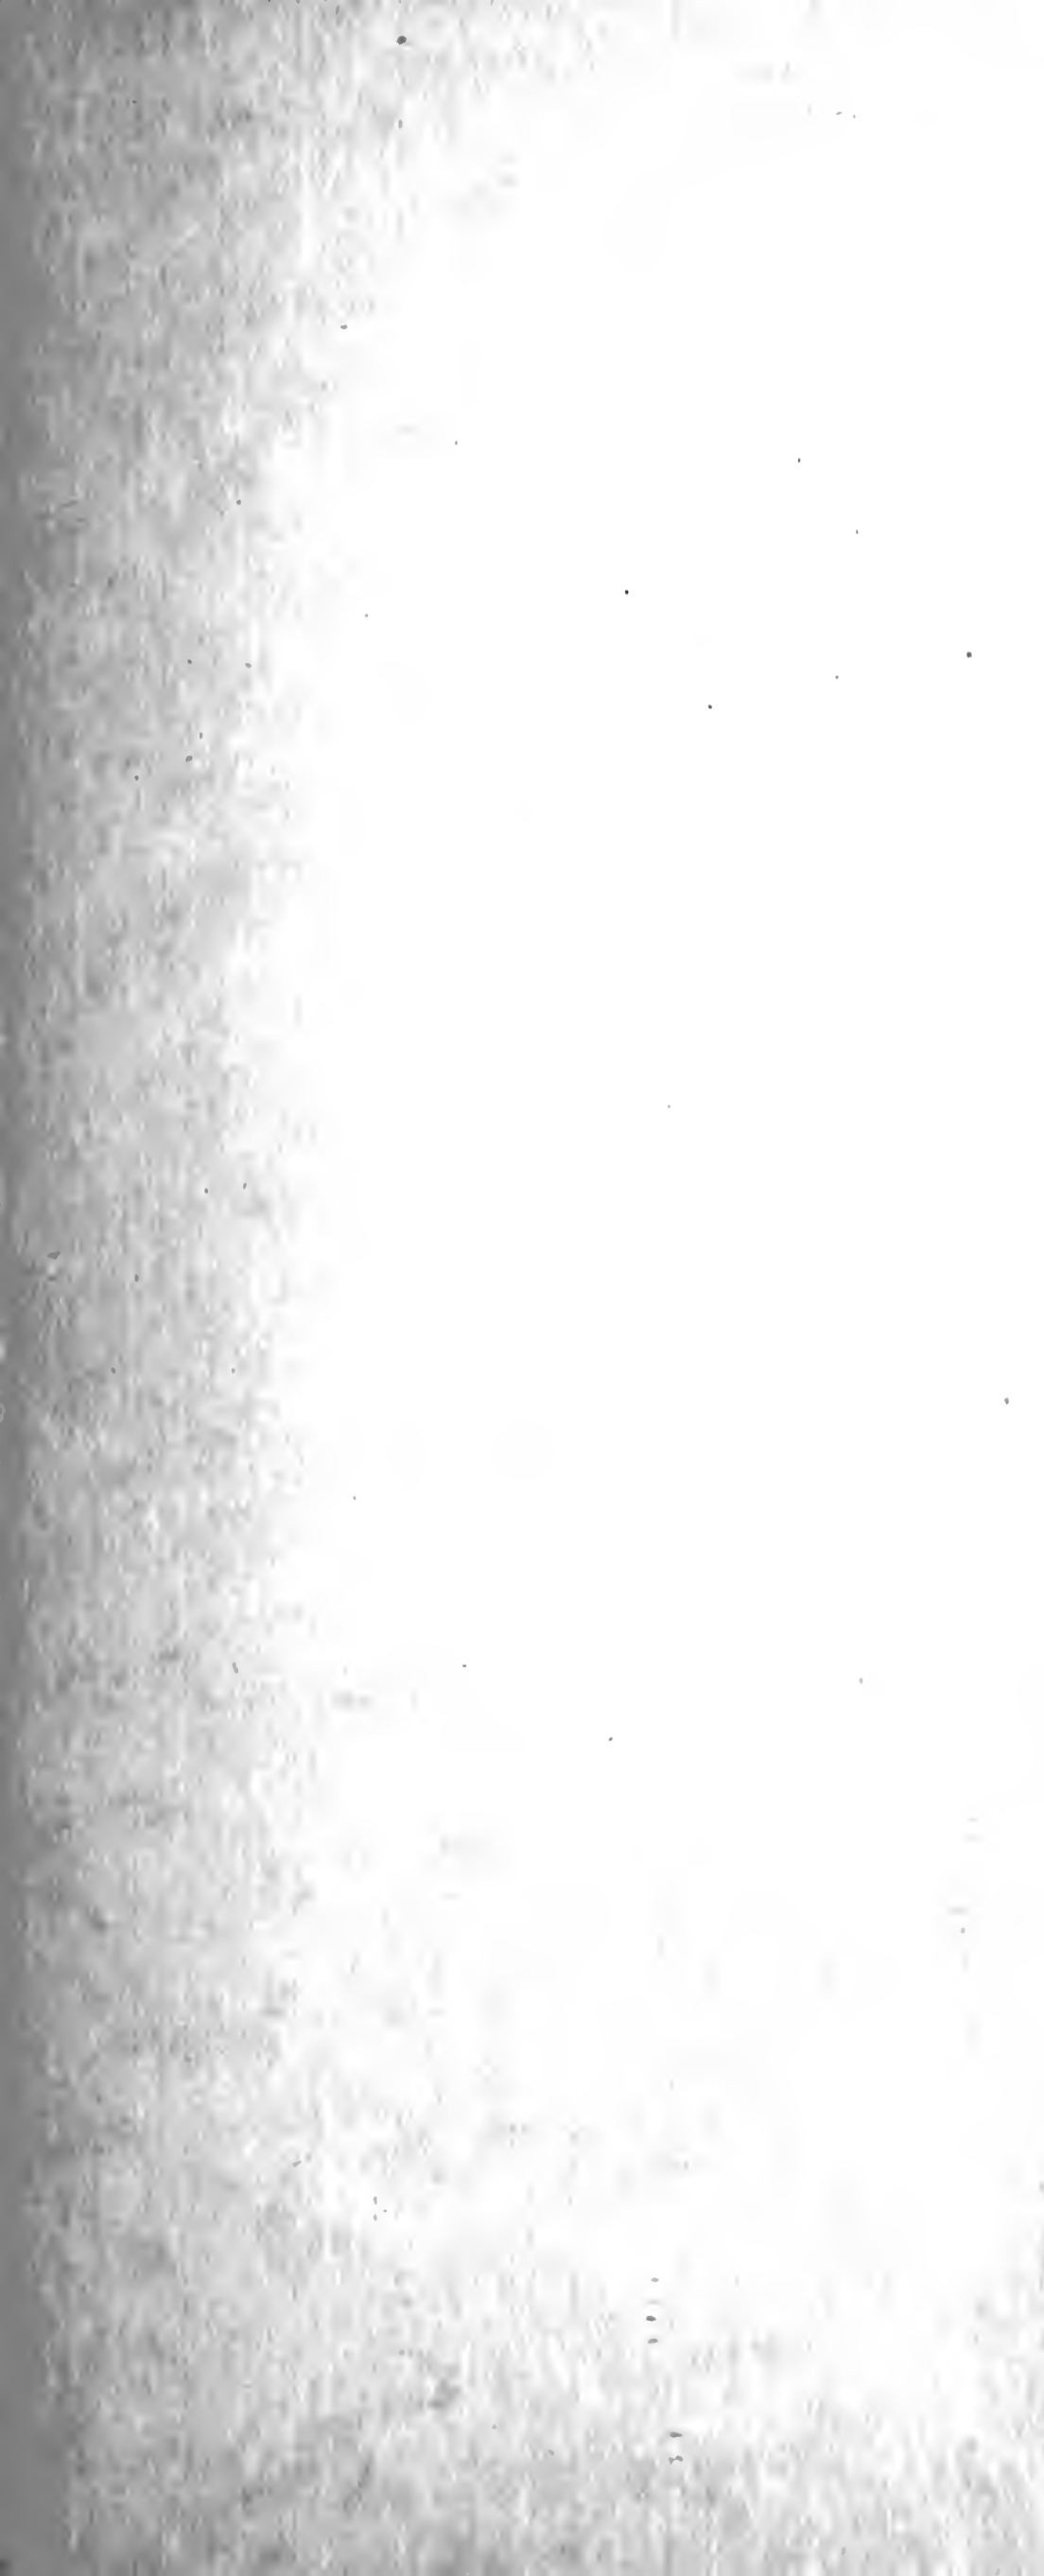

To those of you who have not bought from us in the past, we invite you to place a trial order with us. We fully appreciate the fact that if our stock and service is not up to your expectations we cannot hope to make you a customer. With this in mind we are looking forward to your first order with a promise that our stock and service is guaranteed to please you.

We offer the best assortment and quality in lining out for spring that we have had in several years, and we advise placing your orders early as our supply in many items will be exhausted before the season is half over at the rate orders are now coming in. There isn't any doubt but that many items are short and those who wait for late buying will be disappointed in not finding the stock they want.

We will be glad to book your order now and ship when you are ready.

Thanking each one of our customers for the business given us in the past, and looking forward to a chance to serve you more in the future with a promise to put forth our best effort to see that you get good stock and the best possible service, and wishing you a good spring business, we are,

Sincerely yours,
